Vanderbilt's Early Decision admit rate over its Regular Decision rate — the widest gap any school has verified for the Class of 2030.

■ Early Decision ■ Regular Decision

A widely repeated “79.8% ED vs. 33.3% RD” figure for Fairfield doesn’t hold up — Fairfield’s own reporting puts its real combined early-round rate at 28%. Numbers above are pulled directly from each school’s own admissions office or newspaper of record, Class of 2030.
